

Angle Brackets - Galvanised

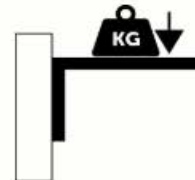

Angle brackets are suitable for supporting or bracing purposes and are galvanised for outdoor use.

Product Code	A (mm)	B (mm)	C (mm)	Thickness (mm)	Load Rating (kg)
AG05	75	50	20	3.5	45
AG07	100	75	20	4	150
AG09	125	100	20	4	75
AG11	150	125	20	4	40
AG14	200	150	25	4.5	30
AG18	250	200	25	4.5	25

Load rating test specifications:

- 415mm distance between 2 brackets
- Bracket is fastened to wall using shortest side of bracket
- Brackets tested in the orientation below:

Weight capacity of all shelf brackets will always be dependent on the fixing to the wall, distance between brackets and the condition of the wall, the brackets are being fitted to. Weight should be distributed evenly across shelf.
