

RV SERIES & ABS SERIES

Xiamen Bristar Techenology Co.,Ltd

RV-ezMount

ABS-6

ABS-7

ABS-4

ABS-5

Technical Details:

- 1.The product is made of ABS plastic, enhanced with UV stabilizers, ensuring superior ultraviolet resistance and a prolonged service life.
- 2.It employs an adhesive installation method, providing a secure and aesthetically pleasing appearance while allowing for easy disassembly.
- 3.The design effectively protects the corners of components from damage, ensuring durability and longevity.
- 4.Installation does not require drilling, preventing any damage to the roofs of RVs or the decks of yachts.

Z-shaped Bracket

Z1

Z2

Z3

ABS Ballast Bracket

Technical Details:

- 1.Crafted from high-strength, eco-friendly plastics, offering excellent weather resistance and corrosion resistance, suitable for diverse climatic conditions.
- 2.Precision-engineered for straightforward assembly, optimizing time and cost efficiencies.
- 3.Conforms to environmental standards, promoting the adoption of clean energy solutions.
- 4.Suitable for both rooftop and ground-mounted PV systems, providing stable support.
