

Vinyl Tape for Electric Insulation

No.223S

Insulation tape for CRT degaussing coils boasts the world's No.1 share.

This vinyl adhesive tape used as flame-retardant insulation of degaussing coils, which determines CRT characteristics, boasts the world's No.1 share. The tape meets standards of the American UL (Underwriters Laboratories) and the Canadian CSA (Canadian Standards Association) and contributes to enhance safety of electronic ipment and products.

Features

Properties

Applications

Features

- Offers superior flame-retardant and electrical insulation properties.
- Can be used for wrapping corners of degaussing coils.

Properties

Product No	No.223S
Adhesive	Rubber
Thickness[mm]	0.19
Length[m]	20
Color	Various Colors
Peeling strength [N/19mm]	5.64
Tensile strength [N/19mm]	73.5
Elongation [%]	280
Breakdown voltage [kV]	11.22
Electrolytic corrosion factor	1
Acquired Standard/ Characteristics	UL-510FR • CSA certified

[Remark]

*The above values are sample observed values, not the guaranteed performance.

Applications

- Electrical insulation and binding of CRT degaussing coils.
